Luigi Montrucchio, nato nel 1944 ad Ivrea (Torino).
Laurea in Matematica, Luglio 1971
Dal 1-12-1974 al 1983 Assistente Ordinario presso Università di Torino
Dal 1983 al 1987 Professore Associato Politecnico di Torino
Dal 1-11-1987 al 31-10-1990 Professore Associato Università di Torino
Dal 1-11-90 al 31-10-1993 Professore Strordinario Università di Torino
Dal 1-11-93 al 31-1-2015 Professore Ordinario Università di Torino

1   Publications

- Kantorovich distance on a finite metric space, ArXiv preprint 1905.07547, 2019 (with G. Pistone).

- A note on rational inattention and rate distortion theory, *Decisions in Economics and Finance*, https:// doi.org/10.1007/ s10203-019-00243-0 (with T. Denti, M. Marinacci).

- A class of non-parametric deformed exponential statistical models, in, *Geometric Structures of Information, Signals and Communication Technology*, F. Nielsen (ed.), pp. 15-35, Springer Nature Switzerland AG, 2019 (with G. Pistone).

- Unique Tarski fixed points*, Mathematics of Operations Research,* https:// doi.org/10.1287/ moor. 2018.0959 (with M. Marinacci).

- Wasserstein Riemannian geometry of Gaussian densities, *Information Geometry*, **1**, 137-179, 2018. DOI: 10.1007/s41884-018-0014-4 (with L. Malagò, G. Pistone).

- Commutativity, comonotonicity, and Choquet integration of self-adjoint operators, *Reviews in Mathematical Physics,* **30**, No.10, 1850016, 2018 (with S. Cerreia-Vioglio, F. Maccheroni, M. Marinacci)

- Deformed exponential bundle: the linear growth case, in, *Geometric Science of Information,* F. Nielsen, F. Barbaresco eds., pp. 239-246, Lecture Notes in Computer Science, Springer International, 2017 (with G. Pistone).

- Choquet Integration on Riesz Spaces and Dual Comonotonicity, *Transactions of the American Mathematical Society,* **367**, 8521-8542, 2015 (with S. Cerreia-Vioglio, F. Maccheroni, M. Marinacci).

- Ambiguity and Robust Statistics, *Journal of Economic Theory,* **148**, 974-1049, 2013 (with S. Cerreia-Vioglio, F. Maccheroni, M. Marinacci).

- Classical Subjective Expected Utility, *Proceedings of the National Academy of Sciences of the United States of America,* **110**, 6754-6759, 2013 (with S. Cerreia-Vioglio, F. Maccheroni, M. Marinacci).

- Probabilistic Sophistication, Second Order Stochastic Dominance, and Uncertainty Aversion, *Journal of Mathematical Economics,* **48**, 271-283, 2012 (with S. Cerreia-Vioglio, F. Maccheroni, M. Marinacci).

- Signed Integral Representations of Comonotonic Additive Functionals, *Journal of Mathematical Analysis and Applications*, **385**, 895-912, 2012 (with S. Cerreia-Vioglio, F. Maccheroni, M. Marinacci).

- Necessary and Sufficient Conditions for Optima in Reflexive Spaces, *SIAM Journal on Optimization*, **21**, 174-192, 2011 (with M. Marinacci).

- Finitely well-positioned sets, *Journal of Convex Analysis*, **19**, 249-279, 2012 (with M. Marinacci).

- Cooperative Newsvendor Games: A Review, in, *Handbook of Newsvendor Problems: Models, Extensions and Applications,* T.M. Choi, ed., pp. 137-162, Springer, New York, 2012 (with H. Norde, U. Özen, M. Scarsini, M. Slikker).

- Uncertainty averse preferences, *Journal of Economic Theory*, **146**, 1275-1330, 2011 (with S. Cerreia-Vioglio, F. Maccheroni, M. Marinacci).

- Risk measures: rationality and diversification, *Mathematical Finance*, **21**, 743-774, 2011 (with S. Cerreia-Vioglio, F. Maccheroni, M. Marinacci).

- Complete Monotone Quasiconcave Duality, *Mathematics of Operations Research*, **36**, 321-339, 2011 (with S. Cerreia-Vioglio, F. Maccheroni, M. Marinacci).

- The bargaining set of a large game, *Economic Theory*, **43**, 313-349, 2010 (with M. Amarante).

- Unique solutions for stochastic recursive utilities, *Journal of Economic Theory*, **145**, 1776-1804, 2010 (with M. Marinacci).

- Refinement Derivatives and Values of Games, *Mathematics of Operations Research,* **33**, 97-118, 2008 (with P. Semeraro).

- On concavity and supermodularity, *Journal of Mathematical Analysis and Applications*, **344**, 642-654, 2008 (with M. Marinacci).

- Large newsvendor games, *Games and Economic Behavior,* **58**, 316-337, 2007 (with M. Scarsini).

- *Cores of non-atomic market games, International Journal of Game Theory,* **34**, 399-424, 2006 (with M. Amarante, F. Maccheroni, M. Marinacci).

- Ultramodular functions, *Mathematics of Operations Research*, **30**, 311-332, 2005 (with M. Marinacci).

- Stable Cores of Large Games, *International Journal of Games Theory*, **33**, 189-213, 2005 (with M. Marinacci).

- The Nature of the Stochastic Steady State in Models of Optimal Growth Under Uncertainty, *Economic Theory*, **23**, 39-71, 2004 (with T. Mitra and F. Privileggi).

- Cass Transversality Condition and Sequential Asset Bubbles, *Economic Theory,* **24**, 645-663, 2004.

- A Characterization of the Core of Convex Games through Gateaux Derivatives, *Journal of Economic Theory,* **116**, 229-248, 2004 (with M. Marinacci).

- Introduction to the Mathematics of Ambiguity, in *Uncertainty in economic theory. Essay in honor of David Schmeidler 65th birthday,* (I. Gilboa, ed.), pp. 46-107, Routledge, London, 2004 (with M. Marinacci).

- Optimality Conditions and Bubbles in Sequential Economies and Bounded Relative Risk-Aversion, *Decisions in Economics and Finance*, **26**, 53-80, 2003 (with A. Dal Forno).

- A Growth Model with Productive Externalities, Endogenous Labor Supply and Fiscal Policy, unpublished, 2003 (with F. Cugno).

- Subcalculus for Set Functions and Cores of TU Games, *Journal of Mathematical Economics,* **39**, 1-25, 2003 (with M. Marinacci).

- Cores and Stable Sets in Finite Dimensional Games, ICER WP 7/2003 (with M. Marinacci).

- On fragility of bubbles in equilibrium asset pricing models of Lucas-Type, *Journal of Economic Theory*, **101**, 158-188, 2001 (with F. Privileggi).

- On Lipschitz continuity of policy functions in continuous-time optimal growth models, *Economic Theory,* **14**, 479-488, 1999 (with M. L. Gota).

- Neighborhood turnpike theorem for continuous-time optimization models, *Journal of Optimization Theory and Applications,* **101**, 651-676, 1999 (with M. Marena).

- Fractal steady states in stochastic optimal control models, *Annals of Operations Research*, **88**, 183-197, 1999 (with F. Privileggi).

- Thompson metric, contraction property and differentiability of policy functions, *Journal of Economic Behavior and Organization,* **33**, 449-466, 1998.

- *Fast Growing Stochastic Dynamic Models*, Atti del 22 Convegno A.M.A.S.E.S., Bozzi Editore, Genova, 1998 (with F. Privileggi).

- Topological entropy of policy functions in concave optimization models, *Journal of Mathematical Economics,* **25**, 181-194, 1996 (with G. Sorger).

- Acyclicity and dynamic stability: generalizations and applications, *Journal of Economic Theory,* **65**, 303-326, 1995 (with M. Boldrin.

- A new turnpike theorem for discounted programs, *Economic Theory,* **5**, 371-382, 1995.

- A turnpike theorem for continuous-time optimal-control models, *Journal of Economic Dynamics and Control,* **19**, 599-619, 1995.

- Dynamic complexity of optimal paths and discount factors for strongly concave problems, *Journal of Optimization Theory and Applications*, **80**, 385-406, 1994.

- The neighborhood turnpike property for continuous-time optimal growth models, *Ricerche Economiche*, **48**, 213-224, 1994.

- *Stationary Markovian strategies in dynamic games,* in "General Equilibrium, Growth and Trade II. The Legacy of Lionel W. McKenzie" R. Becker, M. Boldrin, R. Jones and W. Thomson (eds.), pp. 331-351, Academic Press, New York, 1993 (with R.A. Dana).

- Proprietà contrattive in problemi di ottimizzazione sequenziale con funzione uniperiodale non limitata, *Rendiconti del Comitato per gli Studi Economici*, **XXX-XXXI**, 275-292, 1993 (with M.C. Uberti)

- Risk aversion in small and Jensen inequalities, *Rivista di Matematica per le Scienze Economiche e Sociali,* **2**, 1993 (with M.L. Tibiletti).

- *Dynamical systems that solve continuous-time concave problems: anything goes*, in "Cycles and Chaos in Economic Equilibrium" J. Benhabib (ed.), Princeton University Press, New Jersey, 1992.

- A note on Shiu-Fisher-Weil immunization theorem, *Insurance: Mathematics and Economics,* **10**, 125-131, 1991 (with L. Peccati).

- Sobre las estrategias markovianas en juegos dinàmicos, *Quadernos Economicos*, **47**, 63-84, 1991 (with R.A. Dana).

- *Log-convexity and global portfolio immunization*, in "Generalized Convexity and Fractional Programming with Economic Applications", A. Cambini, E. Castagnoli, L. Martein, P. Mazzoleni, S. Schaible (eds.), Lecture Notes in Economics and Mathematical Systems, Springer-Verlag, Berlin, 1990 (with L. Peccati).

- Acyclicity and stability for intertemporal optimization models, *International Economic Review*, **29**, 137-146, 1988 (with M. Boldrin).

- *The occurrence of erratic fluctuations in models of optimization over infinite horizon,* in "Growth Cycles and Multisectoral Economics: The Goodwin Tradition", G. Ricci, K. Velupillai (eds.), Lecture Notes in Economics and Mathematical Systems, Springer-Verlag, Berlin, 1988.

- Lipschitz continuous policy functions for strongly concave optimization problems, *Journal of Mathematical Economics*, **16**, 259-273, 1987.

- On rational dynamic strategies in infinite horizon models where agents discount the future, *Journal of Economic Behavior and Organization*, **8**, 497-511, 1987 (with R.A. Dana).

- *Su un modello di impieghi con reinvestimento dei margini finanziari,* Atti del XI Convegno AMASES, Aosta, 1987.

- Optimal decisions over time and strange attractors: an analysis by Bellman principle, *Mathematical Modelling*, **7**, 341-352, 1986.

- Teorema della ragnatela, aspettative adattive e dinamiche caotiche, *Rivista Internazionale di Scienze Economiche e Sociali,* **XXXI**, **8**, 713-724, 1986 (with F. Cugno).

- Dynamic complexity in duopoly games, *Journal of Economic Theory*, **40**, 40-56, 1986 (with R.A. Dana).

- Some mathematical methods in dynamic programming over infinite horizon, *Rivista di Matematica per le Scienze Economiche e Sociali*, **1**, 79-93, 1986.

- On the indeterminacy of capital accumulation paths, *Journal of Economic Theory,* **40**, 26-36, 1986 (with M. Boldrin).

- *Caos & Razionalità,* in "La Decisione. Razionalità collettiva nell'Amministrazione e nelle Organizzazioni", a cura di L. Sacconi, Franco Angeli Editore, Milano, 1986.

- *Cyclic and chaotic behavior in intertemporal optimization models,* in "Proceeding of the Fifth ICMN, University of California, X.J. Avula,

G. Leitmann, C.D. Mote, E.Y. Rodin (eds.), Pergamon Press, New York, 1986 (with M. Boldrin).

- *The emergence of dynamic complexity in models of optimal growth: the role of impatience*, Working Paper n. 7, Rochester Center for Economic Research, 1985 (with M. Boldrin).

- *Some new techniques for modelling nonlinear economic fluctuations: a brief survey*, in "Nonlinear Models of Fluctuating Growth", R.M. Goodwin, M. Kruger, A. Vercelli (eds.), Lecture Notes in Economic and Mathematical Systems, Vol. 228, Springer-Verlag, Berlin, 1984 (with F. Cugno).

- Cyclic and chaotic behavior in price and quantity adjustment models, *Ricerche Economiche,* **4**, 553-564, 1984 (with F. Cugno).

- Disequilibrium dynamics in a multi-dimensional macroeconomic model, *Ricerche Economiche*, **1-2**, 3-21, 1983 (with F. Cugno).

- *Stability and instability in a two-dimensional dynamical system: a mathematical approach to Kaldor's theory of the trade cycle,* in "New Quantitative Techniques for Economic Analysis", G. Szego (ed.), pp. 265-278, Academic Press, New York, 1982 (with F. Cugno).

- Some mathematical aspects of political business cycle, *Journal of Optimization Theory and Applications,* **37**, 251-275, 1982.

- *Dinamiche caotiche in economia, alcuni semplici aspetti*, Working Paper n. 2, Laboratorio di Economia Politica, Torino, 1982 (with F. Cugno).

- *Bellamy's equalitarian utopia: a system-theory approach*, in "Cybernetics and Systems Research", R. Trappl (ed.), pp. 521-525, North-Holland, Amsterdam, 1982 (with F. Cugno and M. Ferrero)

- Cyclical growth and inflation: a qualitative approach to Goodwin's model with money, *Economic Notes*, **11**, 93-105, 1982 (with F. Cugno).

- *Complessità dinamica in un mercato atomistico: un approccio biforcazionale*, in "Atti del Quinto Convegno AMASES", Perugia, 1981.

- *Macroeconomic dynamics under a continuous political control. Some qualitative problems arising from Nordhaus' political cycle*, in "Giornate di Lavoro AIRO", Torino, 1981.

- *Moneta e fluttuazioni economiche: una estensione del modello Kaldoriano di ciclo*, in "Seminari di Econometria e Matematica Applicata", Università di Modena, 1979 (with F. Cugno).

- *Structural stability in a Goodwin's model*, Preprint n. 16, Istituto di Matematica, Politecnico di Torino, Celid, Torino, 1979 (with F. Cugno and P. Jade).

- Su un sistema a parametri aleatori, *Metron*, **33**, 355-372, 1978.

- *Teoremi di selezione misurabile ed equazioni algebriche aleatorie,* in "Contributi e Ricerche", Università di Torino, G. Giappichelli, Torino, 1978.
